Summary

Versatile Java Full Stack Developer with strong understanding of both front-end and back-end coding languages including Java, JavaScript, HTML/CSS and SQL databases. Previous work has shown significant improvement in system efficiency and user experience. Eager to apply my skills in a dynamic development team.

Skills

- HTML5
- Advanced CSS techniques
- Hibernate ORM
- Spring framework
- Java collections framework
- SQL databases
- Spring Boot
- Java Script

Certification

Certification

- Java Full Stack Development certification from Jspiders , Bangalore.

Project

Secure File Storage and Sharing System

Technologies Used :

JAVA, HTML, CSS, JS, MY SQL

Description :

- This project is a Java-based application that allows users to securely store, access, and share files over a network. The system ensures data confidentiality, integrity, and controlled access using encryption, authentication, and authorization mechanisms.

- Implemented user authentication with hashed credentials and enforced data confidentiality using AES encryption for file storage and RSA for key sharing. Integrated role - based access and activity logging for enhanced security.

Education

Mahendra Institute Of Technology Bachelor of Technology **Stream:** Information Technology	**Percentage : 80** **June - 2024**
Velammal Matric Higher Secondary School HSC **Major:** Biology Mathematics	**Percentage : 63** **April - 2020**
Velammal Matric Higher Secondary School SSLC	**Percentage : 85** **April - 2018**

Languages

English - Working proficiency

Tamil - Fluent
